

About Us

Our typical event has between 80 and 100 players. We typically have two or three flights. Your entry fee includes a prize money component. Take a look at the Latest Results on the home page to get an idea of where that money goes.

Flexibility is one of the great things about the League. We know that schedules change. Click Late Entry or Withdrawal on the home page for more information.

Shortly before tee off time, you will hear "Gather Up".

Most of the guys will be in the cart area shooting the bull. Some will be putting. Others are hitting balls on the range. Everyone comes together for the announcements. New members and any guests are introduced and welcomed to the group. Local rules for the day will be covered.

Then we head out to our assigned tees and start the round. We try to mix up the pairings so that people don't play with the same members every time.

When you complete the round, your group's scorekeeper turns in the scorecard to the scorer's table. We enter the scores into our software. When all scorecards have been entered, we finalize the event. We upload the files to the website before we leave the course. The website is typically updated before 4 PM.
